# Solidarity for

palestine 

congo 

sudan 

tigrey 

haiti 

lgbtqia+ ppl 

bipoc ppl 

disabled ppl 

muslim ppl 

jewish ppl 

# and any other marginalized group of people

**What???**

**how?**

Because of the discrimination marginalized people face, they have a much higher chance of being disabled

**examples**

Getting hate-crimed can easily lead to someone becoming disabled

discrimination by doctors and nurses can easily disable someone

not having access to proper food, water, medicine and housing can easily disable someone

# How does masking help disabled people?

Masking helps alot with preventing the spread of airborne viruses like covid and the flu

These viruses hurt disabled people alot more and alot of the time they lead to us dying

## So remember masking up is for

lgbtqia + disabled ppl  
bipoc disabled ppl  
palestinian disabled ppl
